About the Proceedings

The *Proceedings* of the American Concrete Institute appear first in the JOURNAL of the American Concrete Institute. In 1983, the ACI JOURNAL was published bimonthly, with the annual index published in the March-April 1984 issue. The *Proceedings* include technical papers, ACI committee reports, and abstracts to ACI separate publications. All technical material originating in the ACI *Proceedings* pages is indexed annually. By assembling the *Proceedings* pages, which are numbered consecutively January through December, with the title, contents, and index pages from the index issue, a complete volume is formed.
